

5th Jan 2021: Further suspension of public worship, until further notice.

At 4pm today our heating engineer says he has sourced parts for the boiler in St Mary Magdalene Hall, and will return to fix it on Wednesday 6th January. Unfortunately, he has not yet been able to source parts for the boilers at St Martha's Church, St Mary Magdalene Church or St Mary Magdalene Presbytery. As the temperature remains intolerably cold, I am extending the suspension of public Masses, until further notice. We are grateful to the Parish of the Good Shepherd for providing us a Church to use for this Thursday's Requiem Mass. Over the next few days, Fr Simon will endeavour to provide Mass on Facebook Live and upload it to You Tube thereafter. Fr Simon will continue to press the issue with the Heating Engineer and has raised the issue with the Property Department at Bishop's House in Hove.
